R H I N O

PROUDLY NEW ZEALAND OWNED  
Great Lake Motor Distributors and all our SsangYong  
dealers are 100% NZ owned and operated.

## ALL-NEW RHINO IS READY FOR WORK AND PLAY

A blend of dynamism and sophistication sets the new Rhino apart in any environment.

Better utility, better comfort and better versatility make this the exciting new ute of choice.

A new, more powerful engine, dynamic styling and better fuel efficiency are all yours with this all-new ute from SsangYong.

The Rhino has been built for maximum value and utility, in the way that pickup trucks were originally intended to be designed.

## A BOLD AND RUGGED LOOK UP FRONT

The eye-catching radiator grille with chrome line through the centre establishes an unmistakable identity. Front and sides offer a striking blend of muscular lines and curved surfaces; circular fog lamps add a touch of sophistication.

High-intensity-discharge headlamps for better night vision; LED daytime running lights (SPR only), positioning lamps and directional indicators grouped in the upper lamp housing for simplicity

Shoulder-wing design of radiator grille for greater depth and a dynamic feel

Side repeater and puddle lamp mounted on the back of the outside mirror (SPR only)

## PRACTICAL AND DISTINCTIVE BEHIND

The rear is identified by the signature shoulder-wing line and wrap-around tail-lamp assembly. The black rear bumper matches front for balance. Reflex reflectors provide added visibility to vehicle for safety.

The bed is coated with an inner cover for protection, while a foldable tie-down ring is placed at each corner of the truck bed to secure cargo. In addition, an outlet is mounted near the reinforced tailgate to provide electrical power for tools and other devices.

## A GREAT WORKPLACE TO BE

The ergonomic seats ensure a comfortable fit for the users, helping to reduce fatigue on long trips. Handy pockets are built into the doors front and rear to keep maps, water bottles and other essentials within easy reach.

A grip has been installed on the B pillar to assist passengers in back. In front, the centre console is equipped with a USB port, power outlet, and pair of cup-holders, and cup-holders are also placed in the second row.

## CONNECTED AND CONVENIENT

Driving the Rhino is fun and easy. The tilt steering wheel adjusts easily. Remote control and cruise control switches are mounted on the steering wheel for instant access.

### PROVIDING A FULL VIEW OF THE ENVIRONMENT OUTSIDE

Four cameras have been mounted on the outside (SPR only) to provide a real-world view of the area on all sides of the vehicle, making low-speed driving or parking safer and easier.

### THE LATEST INFOTAINMENT

The infotainment system comes with a high-definition touchscreen (SPR and Sport only), which supports Apple CarPlay and Google Android Auto. System features also include radio and MP3 player functions, real-time broadcast recording, and USB port.

### 360° MONITORING SYSTEM (SPR only)

360°  
VIEW

Front view  
camera

Side view  
camera

Rear view  
camera

### APPLE CARPLAY AND ANDROID AUTO

Users may connect their smart phone to the display to make phone calls, check messages and listen to music while on the road.

### SUPER-VISION CLUSTER (SPR only)

7" colour TFT-LCD display

### TRIPLE-MODE DIGITAL SPEEDOMETER DISPLAY

Regular mode

Animation mode

RPM-linked mode

### TRIP COMPUTER DISPLAY

Turn signal sound selection

Tyre direction indicator

## SMOOTH SHIFTING AND POWERFUL PERFORMANCE OPTIONS

The Rhino is powered by a powerful 2.2L diesel engine. Normally the vehicle runs in rear-wheel drive, which enhances handling stability by optimising weight distribution, but the driver is free to select one of two four-wheel drive modes as needed. The Rhino Diesel model can tow loads of up to 3.5 tons, one of the highest for this class of ute. Also available is our Rhino Petrol model with a smooth 2.0L petrol turbo engine and 2WD only. With a 2.8 ton tow capacity, this is also a great choice.

### PART-TIME 4WD

Part-time four-wheel drive allows the driver to choose when to activate the system, depending upon changing conditions on or off the road. Operation safety and efficiency are thus superior to what the full-time 4WD system provides.

2WD  
High-speed  
range

4WD  
Low-speed  
range

4WD  
High-speed  
range

### FIVE-LINK REAR SUSPENSION SYSTEM

The axle is connected on the left and right to provide a smooth ride even when the road surface gets rough. Such a system is preferred for off-road operation.

### AISIN 6-SPEED AUTO TRANSMISSION

A high ratio spread optimises shift quality under diverse road conditions. Control of changes in speed is solid, enabling the automatic transmission to maintain a smooth shifting feel. The Manual mode (shifting up or down) delivers rapid responsiveness for a more dynamic driving performance.

### » e-XDi 220 diesel engine (Euro 6-compliant)

Max. Power  
(kW / rpm)  
**133 @ 4,000**

Max. Torque  
(Nm / rpm)  
Diesel Auto **420 @ 1,400~2,800**  
Diesel Manual **400 @ 1,400~2,800**

Displacement  
(CC)  
**2,157**

### » e-XGDi 200T

Max. Power  
(kW / rpm)  
**166 @ 5,500**

Max. Torque  
(Nm / rpm)  
**350 @ 1,500~4,500**

Displacement  
(CC)  
**1,998**

SAFETY ALWAYS A PRIORITY

The Rhino comes equipped with six airbags, including curtain airbags (SPR only). The electronic stability programme monitors road conditions and vehicular status constantly, adjusting engine output and braking whenever the driver is about to lose control. The new Rhino also comes with a locking differential system to provide better traction on steep and slippery gradients, and to increase towing performance.

ESP Electronic Stability Programme

Hill Descent Control (HDC)

LOCKING DIFFERENTIAL

On muddy or snowy surfaces, one wheel may slip or be lifted into the air. In this case, the locking differential forces both wheels on an axle to turn in unison, allowing the vehicle to recover its traction.

6 AIRBAGS

- 1 Driver's airbag
- 2 Passenger's airbag
- 3, 4 Driver's & passenger's side airbags (SPR only)
- 5, 6 Curtain airbags (SPR only)

SAFETY SYSTEMS | AIRBAGS

## SOLID FUNDAMENTALS

The new-concept Quad Frame helps to keep road surface and engine noise out of the cabin.

At the same time, it is designed to minimise the possibility of injury to occupants in a collision.

## QUIETER INSIDE

The rubber engine mounts have been enlarged to reduce engine noise and vibration while idling or travelling.

Quadruple-layered seals are on the top and bottom of the doors and around the windows to block out road and wind noise.

## ADVANCED AUTOMOTIVE HIGH-STRENGTH STEEL

High-density, high-tensile-strength steel plate makes up 79.2% of all the steel plate used in the body-chassis, providing superb rigidity and protection against deformation in a collision. Thus, protection of the vehicular occupants has been maximised.

## QUAD FRAME

Unlike with a monocoque structure, the engine and suspension systems are attached directly to the frame, blocking the heavy shock experienced when traveling over rough road surfaces or speed bumps and ensuring maximum handling stability.

## CRASH ZONE BOX

The 'crash zone' refers to that part of frame that conveys the most shock from a frontal collision to the inside of the cabin. This 'box' is designed to absorb that force, thereby protecting the people inside.

# SAVING THE WILD

Founder of Saving the Wild, Jamie Joseph is a young woman on a critical mission – to save her beloved African rhinos. With rhino horn worth more than diamonds or cocaine gram for gram, rhino poaching is lucrative and trying to stop it, seriously dangerous. Since the start of 2016 she has been exposing a notorious rhino poaching syndicate led by the accused rhino poaching kingpin of Zululand, Dumisani Gwala.

In October 2017 she exposed the 'Blood Rhino Blacklist', a syndicate of corrupt magistrates and prosecutors protecting not only rhino poachers and kingpins, but murderers and rapists too.

In this war on greed, Jamie Joseph continues to fight for that which is priceless.

PROCEEDS FROM EVERY SSANGYONG RHINO SOLD WILL GO TO HELP JAMIE JOSEPH AND HER CRUSADE TO HELP SAVE THE RHINO IN THE WILD.

## STYLE & CONVENIENCE

Bed dimensions

Cluster with 3.5" trip computer

Safety powered window

Tilt steering wheel system

Reinforced tailgate

8" smart audio (SPR and Sport only)

2 din audio with MP3 player

Remote control switches and cruise control system on the steering wheel
